OUR FACILITY.

INPATIENT ADMISSIONS PROCESS

Nexus Health Systems' admission team works closely with referring facilities, case managers, and family members to ensure the admissions process is efficient. To refer a patient or to schedule a complimentary informational session or tour for your patient at Nexus Neurorecovery Center, **please call the admissions office.**

Every patient served will need a physician's order/referral to proceed. All major insurance plans, workers' compensation, and personal injury payments accepted.

RESIDENTIAL PROGRAM

REACHING NEW MILESTONES.

A CONTINUUM OF TRANSITIONAL RESIDENTIAL PROGRAMS

Most individuals begin their stay at Nexus Neurorecovery Center in either our Windsor or New Genesis programs. However, our unique continuum of care enables residents to enter at any care point. Our team reviews physicians' recommendations and assesses patients to determine his or her unique needs and level of care necessary for success. From there, progress is monitored, and individuals move from program to program to live in the most independent environment – because we're focused on **mending minds.**

WINDSOR PROGRAM

The Windsor Program, a 16-bed Type "B" Assisted Living Facility, is also certified as an Alzheimer's and other related disorders provider by the Health and Human Services Commission. The program has an immense focus on helping manage patients with behavioral dysregulation by providing them with a safe and prosthetic environment. The unique design of the home also allows for individuals with confusion and post traumatic amnesia to live in a secure space. A high level of support and cuing is provided as well as therapies as ordered.

NEW GENESIS PROGRAM

The New Genesis Program, a 16-bed Type "B" Assisted Living Facility, is also certified as an Alzheimer's and other related disorders provider by the Health and Human Services Commission. It provides an increased level of medical supervision and dependent care. New Genesis also has a unique design that allows for individuals with confusion and post traumatic amnesia to live in a safe and secure environment.

CHURCHILL PROGRAM

The Churchill Program is a 16-bed Type "B" Assisted Living Facility licensed by the Health and Human Services Commission. Churchill provides a next step for residents as they continue to work towards their goals. Programming is directed towards developing functional skills and behavioral stability that lead to increasing levels of independence and quality of life. Physical, occupational, and speech therapies are available as needed.

SOMERSET PROGRAM

The Somerset Program, a 16-bed Type "B" Assisted Living Facility, licensed by the Health and Human Services Commission. This program generally provides a long-term and/or life care therapeutic environment for individuals who require intense structure and supervision. Programming and activities are tailored to the needs and preferences of each resident.

CORNERSTONE PROGRAM

Cornerstone 1 and Cornerstone 2 are manufactured free-standing homes with three bedrooms each. This program offers a real-life setting, which helps residents prepare for life at home with both physical therapy activities and high-level program components.

COMMUNITY-BASED LIVING PROGRAMS: The Community-Based Living Program licensed by the Health and Human Services Commission helps individuals with the basics of living and working back into the community, so more independent can be achieved. Residents in this program live off campus in transitional settings monitored by Nexus Neurorecovery Center Staff.
